PLAYERS' SESSION · RUN OF SHOW

Thursday, Nov 12, 2026 · "Charting Apps and Your Player Card" deck (16 slides), then the Chart This Inning activity · about 75 minutes

NIGHT BEFORE · LAPTOP, ON WIFI

1. In the browser you'll present from (Chrome or Edge, not private): open **legendbaseballapps.github.io/titans-apps/demo/** and tap **Load the 7th inning**.
2. Open the Bullpen Chart, Pitch Chart and Offense Chart from that page. Close the browser and open all 3 again (that's what makes them work offline).
3. Open the sample card page once: **…/titans-apps/cards/sample.html**.
4. Open the Chart This Inning page. Also copy the offline version (Claude outputs › players-session) to the laptop.
5. Leave all of it in tabs behind the deck.

NIGHT BEFORE · EACH IPAD, ON WIFI

1. Open **Safari**, not the home-screen icons (they keep their own storage).
2. Demo page › **Load the 7th inning**.
3. Open the Pitch Chart and Offense Chart from that page. Close Safari, open both again.
4. Settings › Display › Auto-Lock: **Never**. Charge it.

BRING

Laptop and projector cable · charged iPads · 1 printed group card per iPad · pens

THE DECK

	SLIDE	MIN	DO · KEY LINE
1	**Cover**	**1**	Check the tabs are open behind the deck.
2	**Why We Chart Every Pitch**	**3**	Lead with what they get. *"A card in your email after every pen and every game."*
3	**3 Apps, 1 Dashboard**	**2**	*"We chart it, you see it, you tell us what you think, and we read it next to the numbers."*
4	**How a Pen or Game Reaches You**	**2**	Pens that evening, games the next morning. Practice never reaches your card.
5	**Bullpen Chart**	**6**	**Open the Bullpen Chart.** Tap Hall, chart 3 or 4 pitches with a pitcher calling where each finished. Green on the spot, gold next to it, red a miss.
6	**Pitch Chart**	**7**	**Open the Pitch Chart.** Bottom 7th, Borcherding on, Gavin Hughes up. A catcher calls each pitch (the called spot is required now), a pitcher says where it finished, the room calls the result. Chart Hughes. This is the "I do" for the activity.
7	**Offense Chart**	**5**	**Open the Offense Chart.** Dieker vs Lindqvist. Then Report › Cole Barrett's count grid, then Hitter cards. *"A 7-pitch walk counts. So does moving the runner."*
8	**A Card for You**	**2**	*"These are the real cards, made by the same code that will email yours."*
9	**Try Your Card · phones out**	**6**	QR code. Pitcher or hitter, read the card, write a reflection, tap Send. Nothing is saved.
10	**Your Reflection**	**4**	Ask what they noticed. *"A 1 or 2 emails your coach right away, so someone checks in with you that day."*
11	**Stay on Green**	**3**	Pre-pitch process every pitch; reset at yellow. *"Then win the next pitch."*
12	**The Deadly Sins**	**2**	*"32 of our 76 leadoff walks last season scored."*
13	**What You See and Who Sees It**	**2**	Your numbers only, no rankings. Reflections to coaches only. Opt out any time.
14	**Your Exit Report**	**1**	Just show it. Early sample, not final.
15	**What We Need from You**	**4**	Email you check · reflect within a day · be honest · stay on green. Jan 8, March, May. Questions.
16	**Chart This Inning**	**25**	Hand-off to the activity. The point is the scouting before each hitter. Page 2.
	Total	**75**	**Short on time: cut slide 5 to 3 minutes and stop Round 2 after Herbert. Keep every scout step; they're the point.**

HAND-OFF TO THE ACTIVITY · SLIDE 16

1. On the laptop, demo page › **Load the 7th inning** again. It clears the at-bat charted on slide 6 so the laptop matches the iPads.
2. Switch to the **Chart This Inning** tab (or the offline copy). Start on **How it works**.
3. Groups of 3 to 5, one iPad each, one group card each.
4. Roles: **Tapper** on the iPad, **Spotter** reads the screen, **Checker** watches the taps. Switch every hitter.
5. Before each hitter, a **Scout** step: the Spotter reads his scouting off the iPad, the group says how to attack him, then open **What we did**. Then one click of Next per pitch; wait for every hand.
6. Last screen of each round: groups check their Report tab against it. No scoring.

ROUND 1 · PITCH CHART · BOTTOM 7TH · BORCHERDING

Hughes 2B (hard, deep right) · Marsh GO · Reyes 1B, Hughes scores · Okafor K · Brennan Kc · 1 run, 1 earned at the 3rd-out box

Scouting moments: Reyes (note says start him soft; we did, then left a fastball up and he singled in the run) and Brennan (FPS tag, first-pitch swinger; he chased pitch one).

What the iPads should show, Report tab, Borcherding's card:

17 PITCHES	**5** BATTERS	**3 of 5** FIRST-PITCH STRIKES	**10 of 17** STRIKES
0 FREE BASES	**2** STRIKEOUTS	**13 of 17** EXECUTION	**1 / 1** RUNS / EARNED

Talk it through: the miss that hurt (pitch 3 to Reyes, called below the zone, stayed up); first-pitch strikes right on 60%; 0 free bases is how we get to 150.

ROUND 2 · OFFENSE CHART · TOP 7TH · LINDQVIST

Dieker 1B, first pitch · Bobo K (3 fouls, then a chase) · Herbert GO, tap **Moved a runner** · Pistorius FO on a 1-1 slider

Scouting moments: What is coming says Lindqvist starts with a fastball about 9 times in 10. Dieker sat on it and singled; Pistorius fouled it off.

What the iPads should show, Report tab:

39 LINDQVIST PITCHES	**1 of 3** DIEKER QAB	**2 of 4** BOBO QAB	**3 of 4** HERBERT QAB
1 of 4 PISTORIUS QAB	**2 of 4** QAB IN THE 7TH		

Talk it through: why Herbert's out is a quality at-bat (moved a runner, 2-strike contact); what would have made Bobo's one; Lindqvist throws a first-pitch fastball 9 times in 10.

IF SOMETHING GOES WRONG

PROBLEM	FIX
No wifi in the room	Everything was opened twice the night before, so the apps work offline. Use the offline Chart This Inning copy.
An app opens empty	It was opened from the home-screen icon. Use the Safari tab instead.
A group gets lost	Load the 7th inning on that iPad and re-chart from the top of the inning. Back on the projector shows every pitch.
Pitch Chart won't take a location	Tap the called spot first. It's required every pitch.
Wrong tap	Undo last pitch.
A phone can't load the sample card	Pair him with someone whose phone did, or show it from the laptop tab.

Practice game throughout: nothing charted today is filed or sent to the dashboard.
